## PROFESSIONAL SUMMARY

Frontend / Full-Stack Engineer with 4+ years of experience building scalable web applications with React, Next.js, TypeScript, and Node.js. Experienced in UI development, REST API integration, backend automation, AWS-based workflows, and AI-driven chatbot and CMS architectures. Currently focused on agent-based workflows, sub-agent orchestration, and experimentation with modern AI tools and CLIs. English level: Intermediate.

## TECHNICAL STACK

- Frontend: React.js, Next.js (App Router), TypeScript, JavaScript ES6+, Tailwind CSS, SASS, React Hook Form, Vite.
- Backend: Node.js, Express, RESTful APIs, MongoDB, Mongoose.
- AI / Automation: AI workflow design, agent and sub-agent orchestration, chatbot architecture, n8n, LLM-assisted development.
- AI Tools / CLIs: Ollama, Claude, Copilot, Cursor.
- Cloud & Infrastructure: AWS S3, Google Workspace, domain and subdomain management, hosting, deployment workflows.
- Tools: SEO, WordPress, Elementor, Asana, ClickUp.

## PROFESSIONAL EXPERIENCE

Web Developer & Project Manager | CPF Floors LLC  
Miami, FL (Remote) | Apr 2023 – Present

- Lead frontend development for dynamic web interfaces using React and TypeScript, improving maintainability through modular and reusable component architecture.
- Designed and implemented an AI-driven CMS to streamline internal content management and reduce manual data entry by 40%.
- Built backend automation services with Node.js and Express to support business workflows.
- Developed chatbot-related workflows using agent and sub-agent structures for web-based AI experiences.

- Experimented with modern AI tools and CLIs such as Ollama, Claude, Copilot, and Cursor to accelerate development workflows.
- Implemented AWS S3-based asset management for secure storage and hosting optimization.
- Managed domain, subdomain, and corporate email infrastructure, including Google Workspace setup and SEO improvements for lead generation.
- Coordinated delivery across teams using Agile workflows in Asana and ClickUp, improving execution speed.

## **EDUCATION & CERTIFICATIONS**

- Professional Web Development (HTML, JS) — CoderHouse, 2022.
- Technical English for Developers — Intermediate.
